3 **CLAIMS**
4

5 **What is claimed is:**
6

7 1. A roof-screen system for supporting a roof screen on a
8 roof, comprising:

9
10 a plurality of frame elements of round galvanized steel
11 tubing, said plurality of frame elements being configured as
12 separate frames including a front element, a bottom element,
13 and a diagonal brace element;

14
15 a plurality of base supports operably secured to said frame
16 elements;

17
18 sleeve connector means for connecting said plurality of frame
19 elements; and

20
21 a plurality of support means for supporting a plurality of
22 face panels to said front element of said separate frames.
23

24 2. The roof-screen system of claim 1, wherein said sleeve
25 connector means comprise a plurality of connecting elements
26 which telescope over said frame elements securing the front
27 element, bottom element, and diagonal brace elements.

1
2 3. The roof-screen system of claim 2, wherein said plurality
3 of connecting elements comprise base connectors, end
4 connectors, and field connectors.

5
6 4. The roof-screen system of claim 1, wherein said plurality
7 of base supports comprise a base plate and base flashing.

8
9 5. The roof-screen system of claim 1, wherein said plurality
10 of base supports are T-shaped.

11
12 6. A roof-screen assembly, comprising:

13
14 a plurality of triangular frames of steel tubing including a
15 front element, a bottom element, and a diagonal brace
16 element;

17
18 base support means for securing said triangular frames to a
19 roof;

20
21 connector means for connecting said front element, bottom
22 element, and diagonal brace element together; and

23
24 a plurality of horizontally positioned support means for
25 supporting a plurality of face panels.

1 7. The roof-screen assembly of claim 6, wherein said
2 connector means comprise a plurality of connecting elements
3 which telescope over said frame elements securing the front
4 element, bottom element, and diagonal brace elements.

5
6 8. The roof-screen system of claim 7, wherein said plurality
7 of connecting elements comprise base connectors and
8 connectors, and field connectors.

9
10 9. The roof-screen assembly of claim 6, wherein said base
11 support means comprise a base plate and base flashing.

12
13 10 The roof-screen assembly of claim 9, wherein said base
14 supports are T-shaped.

15
16 11. The roof-screen assembly of claim 6, wherein said frame
17 elements are tubes.

18
19 12. The roof-screen assembly of claim 11, wherein said frame
20 elements are tubes with protective galvanizing.
